

List of bodies or public authorities in charge of inspection provided for in Article 15 of Council Regulation (EEC) No 2092/91

(2000/C 354/05)

Article 9 of Regulation (EEC) No 2092/91 of 24 June 1991 on organic production of agricultural products and indications referring thereto on agricultural products and foodstuffs, requires that the Member States set up an inspection system operated by one more designated inspection authorities and/or approved private inspection bodies.

According to the provision of the last subparagraph of Article 15 of the Regulation, the current communication lists, on the basis of the information from the Member States updated in October 2000, the system made operational in each Member State and the bodies and/or authorities approved for inspection.

Under the column 'comments' the systems made operational in each of the Member States are indicated as follows:

A: System of approved private inspection bodies;

B: System of (a) designated public inspection authority(ies);

C: System of a designated public inspection authority and approved private inspection bodies.

From January 1998, approved inspection bodies in the European Union must satisfy the requirements of standard EN 45011 (Article 9(10) of Regulation (EEC) No 2092/91).

The list also contains the bodies and/or authorities approved for inspection by non-EEC countries adhered to the EEA.

AUSTRIA AND GERMANY

In Austria and Germany the bodies are approved at the level of the *Länder* and have their activity limited to certain specified *Länder*. For these countries, the comments column indicates for each body the *Länder* where it has been approved, followed, where relevant, by the other *Länder* where these bodies may do their inspections. The following codes are used:
